الحل

The goal of this game is to teach you cybersecurity in a fun way! You will play through different levels

Each time it gets harder so make sure you know your security well enough 😊 and do not forget to .enjoy it

المنهجية

First day we stretched and gathered with the coach HTML, CSS and from chatgpt, and basic coding.

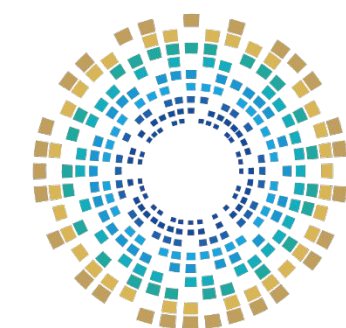

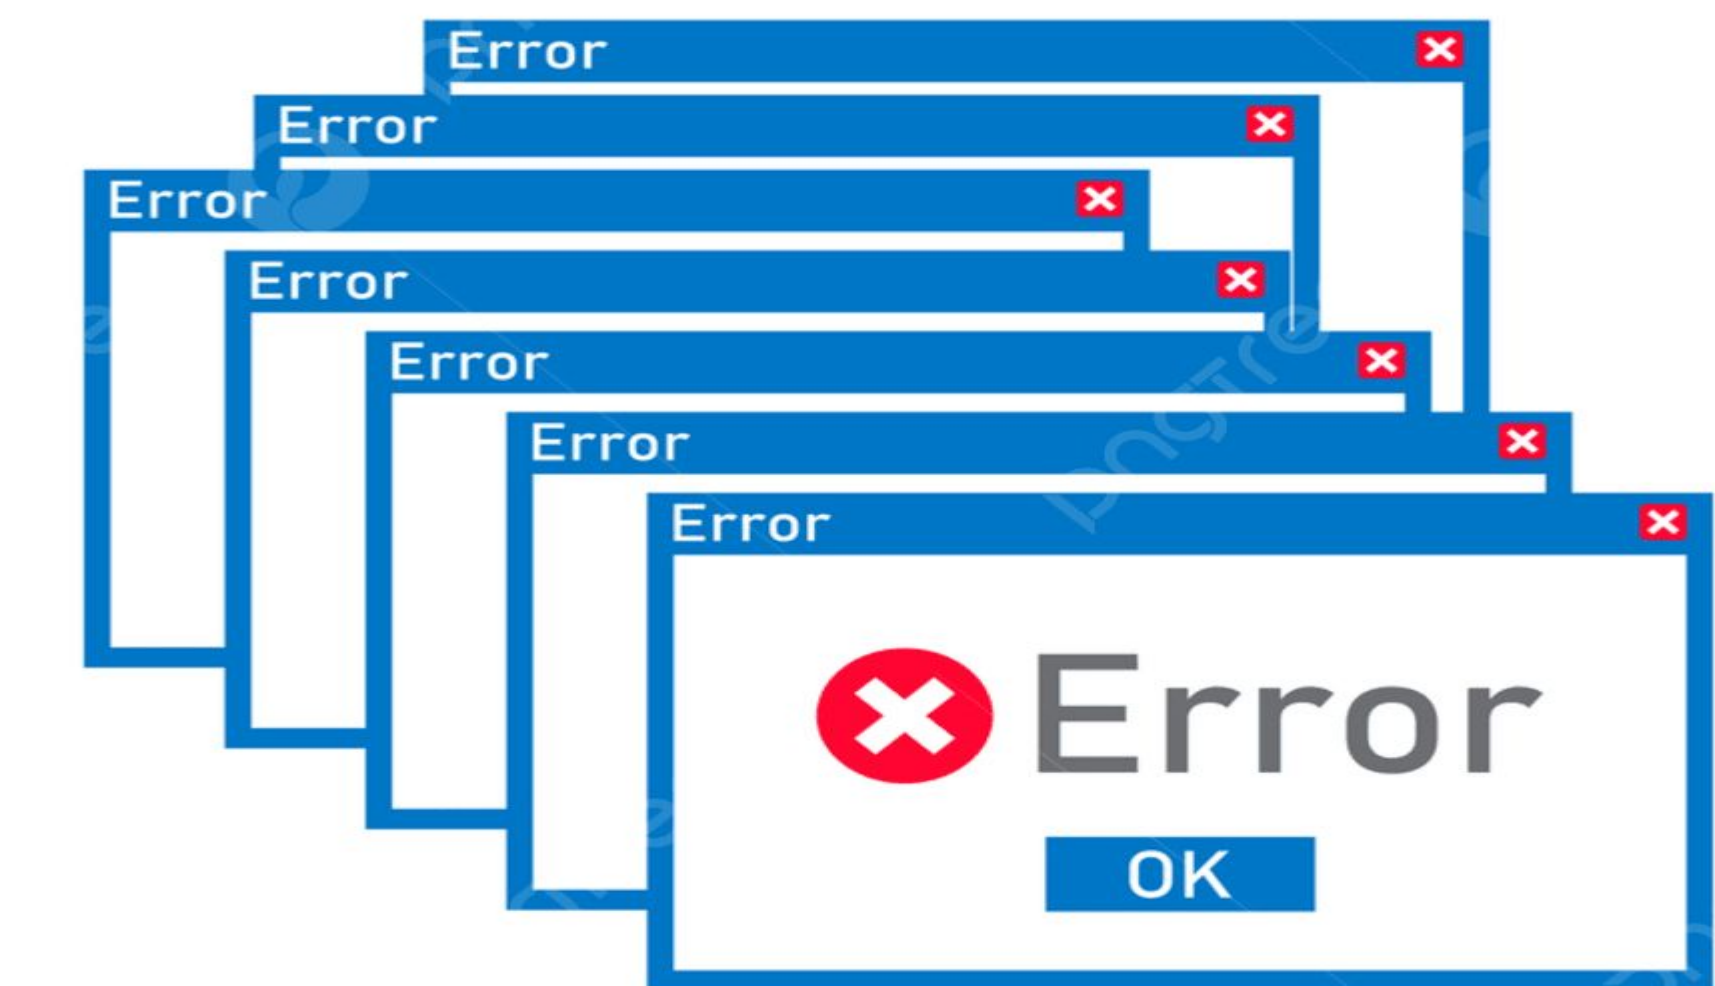

Second day we called at home and improved our coding using the help of chatgpt.

Last day we took feedback for our teacher and detailed the css.

التحدي

We faced many challenges with coming there was many in this world error like Missing up with .the files
